

## Temporary Kuron Primary Health Care Centre

Health is a priority in every human life. This begins at individual level until it extends to health care at medical facilities. Good environment is a necessity for a both a healthy living and a good working condition. The primary health care centre in kuron is going through a series of succession until at a time in future when a dream of the first fully functional hospital shall be realised in Kuron and most especially in Eastern Kapoeta County South Sudan since the beginning of man's civilisation.

I take this time to thank all stakeholders who have participated and are still participating in the infra structure development of the health sector, these are Mr. Oyat David (Medical Nurse), Sr. Angela Limiyo (Medical Nurse) for the plan of the new temporary health centre and Wild Geese (Donor NGO) for permanent Primary Health Care Centre yet to be completed,

*Report by: Ira Emmanuel, Project Manager & Administrator, HTPVK-Sudan.*
